If I go to work at 5 AM, I don’t want to be grumpy and tired where I don’t want to go to class. You always want to strive for an A. But that really is the main barrier, is trying to make sure I have the time to do it.” --HCC Student

To embrace Houston's future, we needed to better understand of our students in a way that can be regularly refreshed.

## ***Personas:***

- Composite profiles of students that capture similarities in backgrounds, goals, challenges, and assets that students share.
- archetypes, not stereotypes (Actual students are a mix of personas)
- Encourage faculty, staff, and institutional leaders to empathize with students.

# We must first know our students more deeply

- Understanding Our Individual Student Characteristics
  - Who are our students?
  - Where do they come from?
  - What are our students' abilities, motivations, mindsets?
